The Nordic culture from its “Hygge”¹ to its “Friluftsliv”² fascinates us.

In the Nordic product design, there is a necessity of practicality, with a focus on usefulness and durability, taking into account the surrounding natural world and its resources.

Our point on new Nordic design is to incorporate the functionality, craftsmanship, minimalism and creative courage in every one of our creations.

¹Hygge = is a Danish/Norwegian word for a mood of coziness and comfortable conviviality with feelings of wellness and contentment.

²Friluftsliv = a Norwegian concept, open-air living, encourages outdoor adventures for all ages in all weather.

SAHCO BOUCLÉ

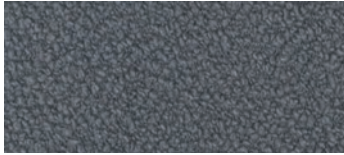

Elle

A curled bouclé fabric, Elle drapes and curves around furniture like an elegant designer coat. The spun bouclé yarn created by blending wool, viscose and acrylic gives the surface a soft tactility. During the subsequent dyeing the yarns take the colour differently, creating captivating shifts within the same tones. This effect and a slight sheen from the acrylic blend bring life to the voluminous textured bouclé surface.

Elegant neutrals range from oyster, coffee, pearl white, light ivory and caramel to cactus green, concrete grey, nutmeg, mud brown and ink. Taking cues from fashion, brighter contrast colours are sunset orange, rust, plum and aqua.
