SISU Coffee Table

This eye-catching coffee table has the same language as our Sisu Dining Table.

A unique design that defies structural boundaries and symmetrical balances. The Finnish concept "Sisu" fits like a glove to this table description: determination and bravery even when success is against the odds.

A "U" shape holds this table together forming a dynamic and asymmetrical piece. Each pair of legs is different, giving the table a different look on each side.

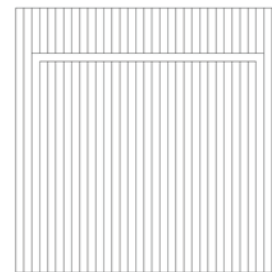

This coffee table is made of sustainable birch plywood using CNC cut with innovating waste efficiency technology. We are using the highest quality woods with natural non-toxic glues and paint. This piece is assembled and finished by professional craftsmen.

You can choose between two different color sets.
